

Refund & Cancellation Policy

LGM Analytics / Lottery Guess Master

Effective / last updated: September 8, 2026

This policy applies to purchases of LGM Analytics digital membership access and related online services.

1. Digital-service nature

LGM Analytics provides digital access to online tools, member number insights, daily sheets, data presentations, and related digital services. No physical product is shipped. Access may begin shortly after successful payment and account matching or after manual support activation.

2. General refund approach

Because digital access can be delivered immediately, refunds are generally not provided once paid access has been granted or digital member content has been made available. However, LGM Analytics reviews legitimate billing, duplicate-charge, technical-access, or payment-processing issues on a case-by-case basis.

3. Request window

For a billing issue or technical access problem, contact support@lotteryguessmaster.com as soon as possible, preferably within 48 hours of the charge or problem. Include the account email and payment email, but never send a full card number, password, or other sensitive authentication information.

4. Monthly subscription cancellation

Monthly memberships renew automatically until canceled. Customers may cancel through the applicable payment-provider membership page or other cancellation method offered at checkout. Cancellation stops future renewal charges. Unless otherwise required by law or approved as an exception, cancellation does not create a refund for a billing period that has already been paid and delivered.

5. Time-limited one-time plans

A one-time, time-limited membership ends at the stated expiration date and does not renew unless the checkout expressly states otherwise. Unused time is not normally refundable after access has been delivered, subject to applicable law and approved billing-error exceptions.

6. Duplicate, erroneous, or unauthorized charges

Duplicate or incorrect charges should be reported promptly so they can be reviewed. If you believe a charge was unauthorized, you may contact LGM support and you also retain any rights available through your bank, card network, payment provider, or applicable law.

7. Payment reversals and access

If a payment is refunded, reversed, charged back, or otherwise invalidated, related paid access may be suspended or ended because the payment supporting that access is no longer valid.

8. Provider and legal rights

Refund handling may also be subject to payment-provider procedures, card-network rules, and applicable consumer law. Nothing in this policy removes rights that cannot legally be waived.
